Our content today is divided into four parts. Each part will be described with examples.

MISSION & VISION

The perceptive of the project is to create an application "Here you Grow". The main focus is to assist Pakistanis to find gateways to education, skills, and life motivations. It will overall improve the efficiency of learning, exploring, and grooming!

Skill on Hand

Explore courses and learn skills of your interest.

Innovation

Bring revolution in your life, See what leading humans are doing out there.

Universities

Explore universities and degrees of your interest

Pakistan Alumni

Chat with groomed alumni of Pakistan that might help you to groom your perspective

HERE YOU GROW

Muhmmad Taha || Rimsha Aamir

TECHNOLOGIES USED:

Flutter

Firebase

PicsArt

NoSQL

VS code

Android Studio

Adobe Photoshop

Features:

>Sign In /Sign UP.

>Complete App UI.

>Universities, Skill on Hand, Innovation Database

>CURD operation

>Data Query

>One to One Chat

>1-1 Chat Database

>Group Chat

>Group Chat Database

>User Mode

>Admin Mode

Taha Admin
testing log txt: In this example, the Positioned widget is wrapped in a Stack widget and placed as a child of the Scaffold widget's body property. The FloatingActionButton widget and the SingleChildScrollView widget are both placed as children of the Stack widget. The FloatingActionButton widget is positioned at the bottom-right corner of the screen using the bottom and right properties of the Positioned widget.If this still does not work, please provide more details on the specific issue you are facing, and I will be happy to help you further.
